

## **REPORT OF IDU KARMO POWER CRUSADE**

Idu is in the suburbs of the capital city of Abuja in Nigeria, it is thickly populated with a lot of the residents working around the city center, because of the terribly inadequate housing around the city center the area is under a lot of human pressure with all the physical, economic and spiritual problems associated with this pressure. Aids is a reality amongst these people, during healing school we ministered to about five or six people living with full blown Aids.

The crusades and healing schools had a massive impact with these people, we tried so hard to keep the people focused on Jesus God's answer to mankind's problems and he did not disappoint.

The program was organized by Rev. Kingsley Paul Onyeama, of Grace and Power Bible Mission, working with the pastors in the local area.

The program started with a minister's conference which began on the 22<sup>nd</sup> and lasted till the 24<sup>th</sup> of November, I was billed to speak on the last day of the conference, it was richly rewarding speaking to about 150 – 200 pastors and ministers who gathered there.

For me, the high point of the weeklong program was the healing school that took place every morning from Wednesday 24<sup>th</sup> – Friday 26<sup>th</sup>, the healing schools were running alongside the crusades.

The healing schools were wonderful. I ministered, teaching the principles of divine healing and ministering to the sick. I was blessed to have an old friend Pastor Sunday Idoko join me on the last two days of the healing school.

If the healing schools were awesome the crusades were explosive, Dr. Uma Ukpai was billed to be the main speaker for the crusade while I was supposed to minister on one of the nights, it turned out however that God had other plans, I became the main speaker and Dr. Ukpai ministered only on the last morning service of the crusade.

It is estimated that nightly attendance at the crusades was about 4 – 5,000 people. The first night, as the altar call was given, a crowd of about 1,000 people surged forward to give their lives to Jesus, it was wonderful to behold!

The testimonies were amazing; all kinds of healing were manifested just like in the bible days.

For me, it was a unique experience. During the meeting I did the three things I feel called of Jesus to do. Minister at a minister's conference sharing the principles of apostolic christianity, conduct healing schools and preach at crusades, what a glorious experience!

The really awesome part of all this was that I had never really met the program organizer before this time, though I was informed, he had attended previous apostolic ministers conference I held in Abuja.

Already as fallout of this meeting, crusade plans are being put together for Gwagwa an area near Suleja in Niger State.

Join us in praying and believing for mighty harvest of souls.

Here are a few pictures from the program.

## **SOME TESTIMONIES FROM IDU**

Caroline John, suffered from terrible demonic oppression by water spirits, because of that she had been to many places seeking for help, she actually lived a long distance from the crusade venue, but her brother called her and informed her of the program so she decided to attend.

She attended the first day of healing school was ministered to and was delivered from the oppression of water spirit and spirit-husband.

From Mrs. C. Joy, Idu Crusade was one to remember, with tear of joy and shouts of praise to God. ‘Mama’ recounted how she had been on the wrong end of satanic inspired opposition, which resulted in an accident that led to her being unable to use her right hand and leg properly, she maintained a confession of faith in Jesus, stating to the amazement of the listening crowd, before anybody can kill me, they must first kill God the father, Jesus and the Holy Ghost, if they can’t kill them, they can’t kill me.

Jesus met her faith; during the crusade she placed her hands on the afflicted parts of the body and received the healing power of God, her leg and hand have been restored to normal use.

For Prophet Chinwola Prince, who ministered in music during the crusade, it was a testimony with a difference.

According to him a total stranger came up to him and introduced himself as a music producer and told him that he felt led to offer him a music contract. To cut a long story short, he was signed up to a popular label with a very interesting contract.

God healing power holds no bounds

Sister Jacintha suffered from a mysterious condition that left her weak and traumatic, she received the invitation to attend the crusade from a relative, but on the first day a friend whom she was supposed to attend the program with dissuaded her from attending.

She was determined that she would not miss out on the second day, according to her she was at the program quite early, and followed every bit of the crusade, when the man of God started praying for the sick, she placed her hands on her body and she felt the power of God touch her and she was instantly healed.
